(Incorporated in the Republic of Singapore)

## **PROFIT GUIDANCE FOR FINANCIAL YEAR 2008 ENDED DECEMBER 31, 2008**

The Board of Directors of Inno-Pacific Holdings Ltd (“the Company”) wishes to announce that based on the unaudited management financial information available to the Company, a loss is anticipated for the Group’s financial year results ended December 31, 2008.

The Group’s telecommunication business was also impacted by the intense competition, with incumbent tele-communications companies introducing calling cards services at extremely low prices. The aggressive pricing packages offered by our competitors have had a negative impact on the Group’s telecommunication service business.

The value of Group’s investments in marketable securities was also materially marked down to market prices in 2008 and was a major reason to the Group’s anticipated loss for the year. The Group’s investments in marketable securities are mostly in SGX-listed shares.

The Company plans to release its full year 2008 financial results in late January 2009.
